Parenting Class Requirement

Please be advised that most Texas Courts require all parties take a parenting class in divorce matters.

Please take a court approved class and submit your completion certificate to this office by fax or email. Below is a list of websites that offer parenting classes approved by most Texas counties. Before registering for any class confirm your county is approved.

If your case has been filed in Montgomery County, Texas you may not qualify to take an online class. Please contact this office to get information on the class you are required to take.

Failure to complete this class may result in the Court denying visitation with your child or dismissal of your case.
